

Jagadguru Sri Shivarathreeshwara University Mysuru Energy Conservation & Recycling Policy

Purpose

In order to minimize energy usage, improve the efficiency of all energy/ resources (natural resources, water, electricity) consuming systems and equipment, and improve the environment in all facilities, Jagadguru Sri Shivarathreeshwara University has adopted a energy / resources conservation and recycling policy.

Definitions

- Energy conservation : Energy conservation is a practice of decreasing the quantity of energy used and achieved through efficient energy use.
- Recycle: Recycle is a process of collecting and reprocessing materials that would typically be considered waste.

Responsible Office

Office of the Vice Chancellor, Registrar & Finance Officer

Policy

Conservation of energy and natural resources and recycling process is an integral part of Jagadguru Sri Shivarathreeshwara University facilities' design and usage. The University employs a variety of energy conservation, recycling, and other techniques to lessen the consumption of resources and achieve the lowest feasible life cycle costs. However, occupant health, safety, comfort, and program requirements shall always be the primary concerns. Energy conservation measures will be achieved by using the most cost-effective, energy-efficient approach with consideration given for flexibility of use and future remodelling convenience. Recycling efforts are encouraged at the Institution/department level.

Responsibilities

- A. All faculty, staff, students, design consultants, and construction contractors must observe energy and resource conservation measures employed by the campus.
- B. The Campus Facilities Maintenance & Management Authority- Deputy Registrar shall be the principal coordinator of all design disciplines, which includes responsibility for the implementation of this policy.
- C. Constituent Colleges & Departments shall be responsible for internal energy conservation , recycling efforts .

Related Policies
